Projects

Auction Platform

- An Online Auction Platform is a digital marketplace that facilitates transactions between buyers and sellers through a bidding system. Unlike traditional markets, sellers list items with a starting price, and buyers place competitive bids in real-time
- The highest bid at the end of the auction wins, ensuring a fair and transparent process. This system helps sellers achieve the best possible price for their goods while allowing buyers to participate in a dynamic marketplace
- Tools Used: HTML, CSS, JavaScript

Personalized Financial Advisor

- Financial Advisors is very much required for each and every individual to enable Financial planning in their lives, but hiring a Personal financial advisor is expensive and not affordable for everyone. A Virtual assistant acting as a Personalised Financial Advisor that gives advices about Investment, Wealth Management and Financial Services is needed**.**

Certifications

- Networking Cloud Virtual Internship by Juniper
- AI-ML Virtual Internship by GOOGLE
- Java Programming Fundamentals by Infosys SpringBoard
- Programming with Java -NPTL
